Average	18.6	8.2	50.5	14.7

Drilled: September 20, 2014
 at 60 lbs/ac
 at 1 1/2" depth into great moisture

Moderately severe infection of wheat streak mosaic.
 Sprayed for stripe rust early in infection process.

Harvested July 10, 2015

These results are from demonstration plots and should be used with replicated performance test data.
 AgriPro results are not included in the plot results, per AgriPro's wishes.
